that we are still handling the

## Tornado FODDER Cutter

And it has proved the most satisfactory piece of machinery ever introduced in this part of the country. The only objection we have to it is that we so seldom have a chance to sell repairs for it. We now have out and in use

37 of these cutters and every one of them has given perfect satisfaction. This is a big claim but we can prove it. It will save you more money in feeding than any machine on the market, as it enables you to feed your fodder so as to get the full benefit of it.

**Ask Any Of Your Neighbors**  
who have used it and they will tell you that we are not claiming too much for it. In connection with this we sell the Star Crusher and Power Comber. It furnishes power to cut your feed, saw wood, or do any light work. It also crushes the corn and cob together, or will grind shelled corn, oats, barley, &c.

### A SOUTHERN ACCOUNT OF THE BURNING OF CHAMBERSBURG, PA.

(Written for the Dispatch.)

The burning of Chambersburg, Pa., July 30, 1864, by General John McCausland's Confederate cavalry was a unique incident of the civil war, as it was the first time the Confederates had applied the torch in retaliation for similar offences committed by the Federal army.

It created consternation and indignation throughout the entire North. They had forgotten that Colonel Montgomery, of the Federal army, committed such gross outrages on private citizens in South Carolina, on raids made into the State—acts so atrocious and unwarranted that he was summarily dismissed from the army; Kilpatrick and Sheridan were barn-burners and bull-burners by instinct, or orders; Jackson, Miss., was partially destroyed; one-third of Alexandria, Va., was burned; and Jacksonville, Fla., nearly all destroyed by fire from the torch of Federal soldiers, yet when we asked them to take a little of their medicine we became incendiaries and freebooters.
